

LITERATURE SURVEY

In a literary survey, students analyse critically and concisely earlier research and literature related to a particular research problem, and utilize them for their own research purposes. It helps students in understanding the significance of new research and its connections to earlier work. A literature review paper synthesizes the key theories and results in a field of study. It describes, evaluates and critiques a large number of resources, then demonstrates how work in that area evolved and discusses the influences that made a difference.
